

Screenshot of a web browser showing the GitHub profile page for user **Gaelqr**. The browser tabs include "P2 Material del parcial", "Gaelqr", "[GitHub] Please verify your device", "choses d'amour toujours - Bûc", and "Instalar GIT en distintos sistemas".

The GitHub profile page for **Gaelqr** is displayed. The profile picture is a green cross on a white background. The user's bio is "Gaelqr" and they joined 2 days ago. The page shows popular repositories, including "5-PM-". Below this, it displays "2 contributions in the last year" with a calendar view showing contributions in October, November, and December. The "Contribution activity" section shows a timeline for September 2022, with a note "Created their first repository" on Sep 28.

The browser then navigates to the repository page for **Gaelqr / 5-PM-**. The repository is public. The page shows the "Code" tab selected, displaying the repository's quick setup instructions. The instructions include:

- Quick setup — if you've done this kind of thing before: Set up in Desktop or HTTPS SSH `https://github.com/Gaelqr/5-PM-.git`
- Get started by creating a new file or uploading an existing file. We recommend every repository include a README, LICENSE, and .gitignore.
- ...or create a new repository on the command line:

```
echo "# 5-PM-" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/Gaelqr/5-PM-.git
git push -u origin main
```
- ...or push an existing repository from the command line:

```
git remote add origin https://github.com/Gaelqr/5-PM-.git
git branch -M main
git push -u origin main
```
- ...or import code from another repository

The browser's taskbar at the bottom shows the Windows logo, several application icons, and the system clock indicating 07:15 a.m. on 30/09/2022.
